Model: QSPT FL&DS V1.0

Characteristic:
This program can solve any problem about pipe prefabricating, and enhance the production capacity to meet the requirement of the customers. Economizing the charge of prefabrication, programming the design of pipeline. Design all of the construction according to the project.

Technical parameter:
Designing and programming project for the pipe prefabrication factory
Drawing for the pipe prefabrication factory
Cannula-Shop drawing for the pipe prefabrication factory
Frame-Shop drawing for the pipe prefabrication factory
Lighting designing for the pipe prefabrication factory
Motivity designing for the pipe prefabrication factory
Equipment setting design for the pipe prefabrication factory
