

Piping Prefabrication Fast Fitting-up Machine

Model: PPFUM-24A1/A2 ; PPFUM-16A1/A2

Performance Characteristics

1. Weld Pipe-flange, Pipe-elbow quickly
2. High quality
3. Low labor intensity

Technical parameter

1. Pipe diameter: DN150-600 (ϕ 168-610) ; DN150-400 (ϕ 168-426) ;
2. Pipe: \leq 6M (or according your requirement)
3. Group System: One set or two sets

Vertical Elevator: motor by lead screw or electricity

Left-Right Move: Linear

Flip Vertical: driven by gear , flip by motor

Vertical Move: light rail, motor by gear rack

4. Bracket System:

Load: 1500KG

Vertical Move: manual

5. Track System: one suit

Rail Length: 8M (or according your requirement)

Rail Type: light rail
